

Most people know that if they have been sick they need **Scott's Emulsion** to bring back health and strength.

But the strongest point about **Scott's Emulsion** is that you don't have to be sick to get results from it.

It keeps up the athlete's strength, puts fat on thin people, makes a fretful baby happy, brings color to a pale girl's cheeks, and prevents coughs, colds and consumption.

Food in concentrated form for sick and well, young and old, rich and poor.

And it contains no drugs and no alcohol.

ALL DRUGGISTS: 50c. AND \$1.00.

#### Do not Crowd The Season

The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that gripe is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia where it was used. It is pleasant and safe to take. Children like it. For sale by J. H. Orme, the leading druggist in western Ky.

#### IRON HILL

Willis Towery spent Friday night with his brother, Gabe Towery, who is ill with typhoid fever.

#### Cheer up Mary

(Parody)

They all hum and haw

About the poor Harry Thaw,

And his darling little wife.

They are all the rage,

And on every page

The papers say she's saved his life.

But there is a slip

Twixt the cup and the lip

Is an adage we all know well.

Yet, as it stand to-day,

We all have to say,

As they lead to his cell.

Chorus—

Cheer up, Harry, don't be sighing,

sighing,

The case is almost won.

All the audience were crying, crying,

Evelyn had them going some.

If jurv they get frigid, frigid,

And the tears freeze in their eye

Harry, dear, have no fear,

There'll be a Thaw out by—and bye

#### G. B. Burhans Testifies After Four Years

G. B. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of these symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble." J. H. Orme.

#### Birds and Kites.

No bird, so far as known records show, has ever alighted on a kite or attacked one. While a scientist was flying a train of five kites some years ago a large silver tipped eagle came suddenly out of the higher air and swooped round and round the first kite, looking against the sunset sky like a huge silver ball. As the train of kites was pulled in the eagle followed, visiting one kite and then another, seeming uncertain just what to do. In a few minutes, when he seemed to have decided that they were not good to eat and he knew nothing about them, anyway, he indignantly flew off and was lost to view. While the scientist's kites were high in the air one March flock of geese flying in the wedge flew over. They invariably stopped, broke up, hovered above the queer object and at last slowly reformed and flew away. While the larger birds all come from heights above the kite, the small birds of the air will alight on the string holding the kite and sway to and fro.

#### Mysterious Glass Balls.

According to a foreign correspondent of the geological survey at Washington, among the most interesting features of the small island of Billiton, between Sumatra and Borneo, an island long famous for its rich tin mines controlled by the Dutch government, are the "glass balls of Billiton," found among the tin ore deposits. These natural glass balls are round, with grooved surfaces. Similar phenomena are occasionally found in Borneo and Java as well as in Australia. The correspondent quoted thinks they cannot be artificial, and there are no volcanoes near enough to support the theory that they are volcanic bombs. Besides, it is claimed, the glassy rocks produced by the nearest volcanoes are quite different in their nature from the material of the balls. It is suspected that the mysterious objects were ejected ages ago from the volcanoes of the moon and afterward fell upon the earth.

#### "Caracul"—Its Etymology.

I have often been asked for the etymology of "caracul," which is a term now largely used by furriers to denote a variety of the fur called astrakhan. The new English dictionary does not contain caracul, but it has caracul, which is liable to be confused with it, though really quite a different word. The caracul is an animal, but caracul, like the nearly synonymous term, astrakhan, is the name of a place—Kara Kul—i. e., the Black lake, near Bokhara, which has long been celebrated for its output of furs. The earliest reference I can find to it in English is in Matthew Arnold's "Sohrab and Rustum."

And on his head he set his sheepskin cap, Black, glossy, curled, the fleece of Kara Kul.

#### Living in the Electric Light.

Writing to a friend in the country, a New York merchant says: "I live in the electric light. I leave my home at 7 o'clock, after dressing and taking my breakfast by electric light. Then I go to the subway, one block distant, and ride to within a block of my office. There I work all day by electric light and go home again by the subway and spend the evening in the glare of the incandescent lamp. The weather conditions make no difference, because my flat and my office belong to the semidark kind. Sometimes I wonder what I would do without electric light, and sometimes I ask myself when I yearn for a little sunlight, is the new light really a blessing?"—New York Tribune.

#### John Stuart Mill.

The genius of this great Englishman was such that before he was twenty he was recognized as the champion and future leader of a powerful school of philosophy and politics. John Stuart Mill is said to have studied Greek at the age of three and at fourteen had begun logic and political economy. The writings and doctrines of this master mind were and are still read and preached not only in this country, but throughout the world. John Stuart Mill stands out prominently among nineteenth century thinkers.—London Mail.

#### Harden.

"Listen to this, Maria," said Mr. Stubb as he unfolded his scientific paper. "This article states that in some of the old Roman prisons that have been unearthed they found the petrified remains of the prisoners." "Gracious, John!" replied Mrs. Stubb, with a smile. "I suppose you would call them hardened criminals."—Chicago News.

#### But He Was Cured.

"I think I'll have to take treatment for the forgetting habit. From whom did you take your treatment that was so satisfactory and successful in improving your memory?"

"From—ah, from—ah—oh, I forget his name, but wait a minute, and I'll get one of his cards out of my desk."—Exchange.

#### Supremely Exasperating.

"Don't you think Mrs. Spurrell has an awful temper?"

"She has, but can you blame the poor woman? She has a husband who just absolutely won't get mad at all."

#### Dear, Indeed!

"The dear, dear girls!" exclaimed Mrs. Pawkins, looking at her fashionable daughters enthusiastically.

"Yes, the dear, dear girls!" muttered Mr. Pawkins despondently.

Man yields to custom as he bows to fate—in all things ruled, mind, body and estate.—Crabbe.

#### The Cost of Newspapers.

How newspapers are to exist at their present subscription rate and their present low rates for advertising is more than we can see and yet every step taken from the head of the postoffice department to the city council is being made to reduce the prices of work to be done by the newspapers.

The white paper alone on which many papers are printed, costs more than is paid by the purchaser for the printed edition. The cost of white paper has been advancing for years. Printing ink never cost more than at the present time and wages were never higher; yet the price of the output has been retained. The newspapers of the country in their columns seem to point out everything in the news line pertaining to the formation of trust, in oil, sugar, paper, coal, steel and almost every commodity in general use, but they entirely overlook the fact that they could and should point with great interest to the fact that newspapers are supplying the public with the news of the world and under a greater expense of production than at any time previous while the comparative cost of advertising has not been increased. The newspapers have been in the front rank in the development of American civilization today they give more to the purchaser for the investment than it is possible to receive in any other channel of expenditure. Any thoughtful person, who will carefully consider the increased publication cost of newspapers and the vast amount of information and pleasure the people derive from them at old time prices, will agree with us that the postage on them as well as on letters, should be reduced.—Mayfield Messenger.

#### Clears The Complexion.

Orino Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Orino is much superior to pills, aperient waters and all ordinary cathartics as it does not irritate the stomach and bowels. J. H. Orme.

Piles get quick relief from Dr. Shoop's Magic Ointment. Remember its made alone for piles—and its works with certainty and satisfaction. Itching, painful protruding or blind piles disappear like magic by its use. Try it and see. Haynes & Taylor.

#### Municipal Newspaper.

Dresden is one of the few cities possessing a municipal newspaper, and this was bequeathed to the city by the late Dr. Gunt. The bequest is a very valuable property, and consists of a daily newspaper, which, in consequence of its extensive circulation, is the principal advertising medium in the neighborhood. The profits are applied to the beautifying and improvement of the city and to charity.

#### A Valuable Lesson

"Six years ago I learned a valuable lesson," writes John Pleasant, of Magnolia, Ind. "I then began taking Dr. King's New Life Pills, and the longer I take them the better I find them." They please everybody. Guaranteed at Haynes & Taylor, druggist 25c.

Always cook fish well, for it is not only unpalatable, but unwholesome, when underdone, and it should always be served hot for invalids.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shoop's. For years Dr. Shoop has fought against Opium, Chloroform, or other unsafe ingredients commonly found in Cough remedies. Dr. Shoop it seems, has welcomed the Pure Food and Drug Law recently enacted, for he has worked along similar lines for many years. For nearly 20 years Dr. Shoop's Cough Cure containers have had a warning printed on them against Opium and other narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by Haynes & Taylor.

#### No Need.

"I wish, Jane," said the fond mother to her new nurse, "that you would use a thermometer to ascertain if the water is the right temperature when you give baby his bath."

"Oh," replied Jane, cheerfully, "don't worry about that. I don't need any thermometer. If the little turns red, the water is too hot; if it turns blue, it's too cold, and there you are."—Life.

#### Safe, Sure and Speedy.

No external remedy ever yet devised has so fully and unquestionably met these three prime conditions as successful as Alcock's Plasters. They are safe because they contain no deleterious drug and are manufactured upon scientific principals of medicine. They are sure because nothing goes into them except ingredients which are exactly adapted to the purposes for which a plaster is required. They are speedy in their action because their medicinal qualities goes right to their work relieving pain and restoring the natural and healthy performance of functions of muscles, nerves and skin. Alcock's Plasters are the original and genuine porous plasters and like most meritorious articles have been extensively imitated, therefore always make sure and get the genuine Alcock's.

**Abbreviations Unwholesome.**

Speaking at Carlisle, the bishop of that city said he was against abbreviations on principle. "At Birmingham recently there was a considerable proportion of the people so busy that they could not spare the time when speaking about the year to say nineteen hundred and one, but articulated sharply, nineteen one. I am persuaded abbreviations have an unwholesome effect on men's minds."

#### The New Term.

"It is wonderful how the automobile craze has spread in the past three years," said the one night stand actor to the man in the car seat beside him. "Guess it has," said the man. "Yes, indeed," the actor resumed. "I was playing in a western town the other night and had the misfortune to forget my lines. As I stood there hemming and hawing the entire audience arose as one man and joyfully yelled, 'Stalled!' Two years ago when I broke down there in an exactly similar manner the very same audience got right up and shouted, 'Stuck.'"
